Bonjour,

In view of the current health situation, the management of the ED informs you that the deadline for the interview of the Individual Monitoring Committee is exceptionally set at 29 May 2020 (instead of 30 April 2020).

Yours sincerely
The ED Directorate

-----------------------------------------------------------------------------------------------------

Bonjour,

This e-mail is mainly directed to all doctoral students in their second year or later and to their thesis advisor(s). The ministerial decree of the 25th of May 2016 requires that the Thesis Committee make a recommendation on the student’s continued enrolment in the doctoral program starting from the application for re-enrolment into the third year of doctoral studies, i.e., during the second year of thesis. The committee may be solicited earlier if necessary. All the information is found on the doctoral school web site

I recall some important points:

* The thesis supervisor is responsible for the organization of the interview. The deadline for the interview is April 30 of each year but in exceptional circumstances may be extend to the end of May.

* The Doctoral School does not finance travel for the external members of the Doctoral Thesis Committees, but the interview may be carried out by video conference.

* The Doctoral Thesis Committee report (to be downloaded from the doctoral school website) must be uploaded by the doctoral student to Siged in the tab “Complementary documents” and included in the student’s re-enrolment application submitted to the Doctoral School during the re-enrolment period in June.

Yours sincerely
The ED Directorate
